From Where I Stand

Monday, November 15, the students will be asked to vote on an issue which this editor feels is very important. This issue involves the matter of whether or not we students get a study day between the last day of classes and the start of final examinations.

Our Representative Council is pushing for this "study day." This editor, for one, will support this strongly for that day between would be a great advantage to the students. It would provide an adequate break, a chance to collect thoughts from the rush of the last class meetings. It would give the student extra study time, and would also provide some extra moments of organizing for the onslaught of examinations.

I feel that it would behoove each and every student to vote in the affirmative come Monday. After all, it is for the students. This is something that has been discussed in the past, but nothing has been done towards creating such a day. Now that we have it before us, with our student government supporting it, it can only be left up to the majority of the student body to decide its significance.

Editor's note: Voting will be held in the North Hall Student Union and also the cafeteria. ID cards must be presented in order to vote.
